About the UK Structured Products Association

The UK Structured Products Association (UK SPA) is an organisation established by companies that create and distribute structured products to the UK financial services market in order to provide a useful and responsive source of information, education and comment on structured products by promoting their contribution to effective financial planning.

The Association's formation is a direct response to the members' belief that structured products are sometimes misunderstood and misrepresented and that this lack of understanding can prevent structured products forming an integral part of financial planning for investors.

The UK SPA is committed to publishing research, information and educational material about structured products and so create greater acceptance about their potential.

The UK SPA is not a commercial organisation and education and research are its core activities.
